Applicant: Peled et al
Patent Number: 6,887,704

The priority is appropriate and the above-identified mistake is clearly reflected in the record of the patent. Specifically, Applicants perfected the priority claim upon the filing of the application on November 13, 2001 in accordance with 37 CFR 1.78 as the specification as filed contains reference to the above-identified prior filed references in the first sentence following the title. Applicants clarified the priority benefit in the Amendment and Response filed December 2, 2003, which the Examiner acknowledged in the Office Action dated February 23, 2004. The correction is not believed to involve such change as would constitute new matter or require examination.

It is respectfully requested that a Certificate of Correction be issued pursuant to 35 U.S.C. 254 to correct the errors in the Related U.S. Application Data. Enclosed herewith are two copies of a proposed Certificate of Correction indicating the errors and corrections thereof.

No fees are believed due in connection with this submission, however, the Commissioner is hereby authorized to charge any additional fees due, or credit any overpayment of same, to Deposit Account No. 50-0311; Reference No. 24024-501CON2A.
